DETAILED ACTION

Restriction Requirement

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-59, drawn to Call distribution to operator, classified in Class 379, subclass 265.01.

Group II. Claims 60-79, drawn to Software Program Development Tool, classified in Class 717, subclass 100.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I. Claims 1-59, drawn to Call distribution to operator, classified in Class 379, subclass 265.01, Group II. Claims 60-79, drawn to Software Program Development Tool, classified in Class 717, subclass 100 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In this instant case, invention Group I has separate utility such as for use in Call distribution to operator for the resource management. See M.P.E.P. § 806.05(d).
3. Because these inventions are distinct for the reason given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
